PROFESSIONAL WEDDING PHOTOGRAPHY

This is the day you have been planning for and dreaming of. Your favourite people in the world are gathering, the dance floor is waiting, the tables are laid and the champagne is chilled. Every special detail has been tended to and now it's time to walk down the aisle and join forces with your better half. You will remember these moments for the rest of your life; the family, the friends, the cake, the music, the tears and the laughter. You deserve to have this beautiful experience thoughtfully captured, telling the story of your wedding with family and friends in the decades to come.

When it comes to shooting your wedding photography, I like to be very subtle and discreet, capturing things as they happen throughout the day and blending into the wedding itself. Your wedding is unique, and I don't want to interfere with that. I aim to become a part of the day by creating a relaxed atmosphere for you to enjoy having your photograph taken in. With an informal and friendly approach, we'll get great candid and real photographs of the love you share. I'll also capture all the details of your day and even line up the family for a few group shots, which can be as formal or informal as you like. I also want you to have time with your guests and loved ones whilst I work, and for photography to not take over your day.

Everything is very informal, and I won't order you around or pose you like a supermodel. But when the light is perfect and using the beautiful surroundings you've chosen for your wedding; I'll capture awesome photographs of you both together. I usually place brides and grooms into a beautiful place, and then ask them to just do their own thing and enjoy each other's company; it's important for me that you feel relaxed and happy in your photographs and everything feels natural.

IMAGE CAPTURE

When you look at your photographs over the years, with your children or grandchildren, I want the pictures to remind you of not just what the day looked like, but also how it felt to tie the knot with that special someone.

YOUR WEDDING DAY

On your wedding day, I will arrive at the times outlined in the schedule supplied, based on the time restraints of the price quoted. We will work together to get great photographs of you both, capture all the details of your day and get some fantastic photographs.

I photograph using natural light wherever possible, but I also use flash and studio lighting to ensure excellent exposure as well as for capturing shots later in the evening and the first dance. I love amazing light, but I like working in challenging weather too! In the event that it does rain we can either do some shots inside or, if you're happy to brave the elements we can try something really special!

I shoot a mixture of reportage and editorial photography, but I'm happy for you to take a creative lead when you want to, and we'll work together to create images you'll love that will make you smile for years to come. I don't mind lining up the family for some more formal shots too and will capture all the details of your big day whilst you spend time with your guests and loved ones.

At the end of the shoot, I will notify you when I am leaving the wedding and ensure that everything is fulfilled within the shooting schedule.

PROFESSIONAL EDITING

Once the day is over, I will process and edit all the photographs taken and reduce them to between 300 – 600* photographs depending on the number of hours that you have booked. The number of photos tends to work out at around 50-75 photographs per hour that you book me for.

All the images will then be cropped correctly and adjusted and balanced for colour, tones and contrast to ensure the photograph looks as great as possible. Some photos will also be converted to black and white to create a different visual effect.

If you have any special editing requests, then please do ask. I will supply you with re-edits of up to 50 images at no extra charge, though this rarely happens, and most clients are 100% satisfied with the editing done on their photographs.

You will also get 100-500 images in a separate folder as a condensed edit of the day. This folder contains copies of the photos mentioned above but will provide you with a selection of my personal favourites that tell the story of the day. This edit is uploaded to the website for others to view once you have received your USB flash drive of images.

*I'm aware that this sounds like a lot of photos, but I want to make sure that you don't feel I've missed anything or anyone when photographing your wedding. Have a look at the recent weddings on my website to get a feel for what a whole wedding day looks like.

INITIAL CONSULTATION

A cup of coffee at your wedding venue, a local café or a pub or we can meet in your home, whatever is more comfortable for you and it's FREE! There really isn't any obligation to book me as your photographer and a lot of clients enjoy the process as it gives them a really good feel for how the photography will fit in with the rest of their wedding plans.

If you are interested, contact me to check availability, learn more about the options and request a quote for your photography. Then we can arrange a meeting somewhere convenient to you and talk through your requirements and how things will run on the day. I can also show you some examples of recent weddings printed in the Graphistudio® wedding books.

This is a great opportunity to get advice on your wedding photography and for me to get to know you and your wedding. It helps to tell me exactly what you want from the day, which gives me the ability to guide you through what will make really great photographs.

BOOKING INFORMATION

Once the retainer fee is paid & the contract has been signed, your booking is finalised. I will attend from the times that you have requested, based on your individual price package/quote. Depending on the circumstance of your booking, you may not hear from me until around one month before your wedding, but you're welcome to email/call with any questions you have in the run up to your wedding and I'll always get back to you quickly.

We will then confirm the timings of the day and what specific photographs you would like taken. I'll communicate with you either via telephone or email to arrange the wedding shooting schedule, usually in the last couple of months of your wedding planning.

If you have an engagement shoot as part of your package, please contact me to arrange the shoot as soon as possible.

WEDDING ALBUMS

This is the book that you'll show your grandchildren and the book you'll treasure for the rest of your lives. It contains photographs of you both bursting with happiness and joy, along with relatives and friends both old and young, all dressed in their finery; and it will be the book that is passed down through generations to come...

I work with my clients to design a layout for the book, you select the images that you would like in the book and then I produce a draft version of the book as a PDF file, so you can double check you're happy with the book design, or suggest changes to the layout before it goes to the printer. It will then be sent off to Italy to be printed and bound at Graphistudio®. The wedding albums are printed on the highest quality photographic paper and bound together with lay-flat binding so every page is presented perfectly.

What I love about these books is that they are printed on professional photographic paper, so you can see all the detail of the photograph that you would otherwise lose on a computer screen, tablet or commercially printed picture book. The images flow together on the page to tell the story of your day, and the book makes it easy to flick through the images at your own leisure.

TESTIMONIALS

JO & GEORGE

"We can't recommend Phil's wedding photography highly enough. He has the perfect balance of professionalism and informality - a perfect combination for what is such an exciting, but at times overwhelming, experience.

Phil's efficiency is outstanding; we were delighted that he was able to send us a selection of beautiful photos less than 24 hours after the wedding! It was a pleasure working with Phil and we look forward to seeing him again at our friends' weddings next year."

NAOMI & ROB

"Phil is a hugely talented, reliable and organised professional, but perhaps most of all a great guy. He was one of the first people we discussed our wedding plans with, and his wealth of experience played a huge part not just in our wedding photographs (which are better than we could have ever imagined!), but in the planning and execution of almost every aspect of our big day. From day one of our wedding planning onward, Phil went considerably out of his way to 'be there' for us when we needed. Always amazingly fast to reply to our many questions, he was the calming voice of reason both before but especially during our ceremony and reception. In fact on the day itself, Phil ended up effectively taking on the role of our event organiser when we realised (surprise surprise) that yes, we were going to be too busy to coordinate five different contractors and 100 guests ourselves. This would have been impressive enough, but most of all we have been blown away by the quality of Phil's artwork."

GINNI & LUKE

"Thank you so much for being so amazing at our wedding!! You were excellent with Evie and very diplomatic with the mums! You were a real hit!!

We both want to thank you so much for everything you have done for us from the very first meeting we knew you were the man for us and you have exceeded all our desires!! You were brilliant on the day (and my niece still talks about you!!) and have given us momentos which help us remember our day forever. We look forward to sharing these pics with our children and grandchildren! We wish you every success in the future and hope you continue to make people's special days even more perfect!!

Cannot thank you enough!
You are the best!!"

VICKY & AARON

"Wow, just wow! We're so blown away with those shots you posted, they're gorgeous and have shared the link with all our friends and family. The long veil photo has turned out so so well, absolutely gorgeous! You've really captured the tender moments!

Phil was able to set everyone at ease on the day and has captured it perfectly, even the small moments and glances in between. We'd recommend him to anyone looking for a wedding photographer that delivers (what our friends have called) "Fairy-tale movie stills".

Thank you Phil!!!!"

ADDITIONAL EXTRAS

SECOND PHOTOGRAPHER

This option is recommended for large weddings where you're inviting more than 100 guests. A second photographer can cover your partner's preparation photos in the morning, shoot from another angle in the ceremony and can also photograph more candid shots of your wedding guests whilst the formal photographs are being taken. You'll receive more photographs from different perspectives and this is a must if you're looking to try and get a photograph of every guest.

£399

ENGAGEMENT SHOOT

This is a great way to get comfortable having your photograph taken and you'll get some lovely photos of you both before the wedding day. You can also use the photographs for your invitations/save the date cards. I also offer this as a family photo-shoot if you have children or would just like some professional photographs of you and your loved one(s).

£249

WEDDING VIDEOGRAPHY

Your video files will be delivered on the USB device along with the photos, or separately via a safe, secure online transfer if needed. Wedding Videography services are offered in partnership with Andy Lambert of LamboLens. Andy & I

There are two wedding video options:

Option One: Highlight film of their day (6-10min w/ selected audio)

£1099

Option Two: Highlight film (as above) + full ceremony, speeches & first dance

SIGNED FRAMED PHOTOGRAPHS

All signed framed photographs are mounted in bright white, have a printed signature included, are printed on Fuji - Lustre photographic paper, and glazed in premium acrylic. The photograph also includes a standard wall hanging kit.
